## Carr Creek Lake WMA Information:

Carr Creek Lake WMA is located in southwest Knott County. The 710-acre lake was created in 1975 by the impoundment of Carr Creek, a tributary of the North

Fork of the Kentucky River. The WMA consists of 2,849 acres surrounding the lake and is owned by the U.S. Army Corps of Engineers. The rough, mountainous terrain is almost entirely wooded. Elevations range from 1,017 to 1,800 feet above sea level.

There are approximately 15 acres of open bottomland in permanent wildlife openings on the area. Good to moderate populations of deer, turkey, grouse, squirrel, bobcats and songbirds exist on the area. The Littcarr Watchable Wildlife Area is located just off Hwy 160 on Hwy 1410. The area features a wooden deck for viewing the marshy area created by the Littcarr Sediment Dam. The area is open under statewide regulations for all game species. See the Fall Hunting and Trapping Guide for additional information concerning hunting seasons.

Camping is allowed in corps-maintained campgrounds. Fishing, boating, and swimming facilities are available. For more information contact the Carr Creek Lake Corps of Engineers office at 606-642-3308.

## WMA Management Objectives:
